OUR FRUITS TABOOED

Germany Closes Her Ports to Another American Staple.

MR. WHITE WAS NOT NOTIFIED.

The Kaiser's Government Says the Action Was Taken For Sanitary Purposes. Representatives and Senators on the Situation—Train Loads of Fruits are Stopped.

WASHINGTON, Feb. 3.—The state department has not yet been informed by Ambassador White of the exclusion of fresh fruits into Germany and the official statement of the matter is awaited with anxiety at the department. For two years the state department has been engaged, almost fruitlessly, to secure from the German government the reversal of a decree like the present one, but applied to our meat products. The attitude of the Germans in this matter is not encouraging and the announcement of this additional decree against another great American staple export has tried the patience of the department sorely and there is no telling how far we may go toward retaliation if the conditions justify it. Of course nothing will be done in the absence of full official information from Mr. White as to the facts in the case.

There was some complaint a few years ago from Hamburg and Cologne against certain importation of dried fruits on the ground that they contained traces of zinc taken up from the trays on which they were dried but there has never been an attack upon the fresh fruit. The reports of the United States consuls show that our apples are so superior in every respect that there is hardly a market for the German apples in their vicinity.

VIEWS OF LEGISLATORS.

Representatives and Senators Give Expression to Their Thoughts.

WASHINGTON, Feb. 3.—The Berlin cable announcing that Germany had closed her ports against American fruits attracted much attention among members of the house of representatives. Mr. Hitt, chairman of the foreign committee, expressed surprise at the step taken. Mr. Hitt hoped that this was not a step in Germany's retaliatory policy which has been referred to in recent utterances by a distinguished German official. Other members of the house foreign committee expressed the view that this was a part of Germany's retaliatory attitude toward the United States.

Representative Barlow (Cal.) said: "California fruits are singularly free from vermin or disease of any kind. I look upon the ground given for Dr. Mignel's decree as a mere subterfuge. No doubt exists in my mind that it is purely a retaliatory measure."

Chairman Dingley looked over the Berlin cable and said: "This is evidently a device to prohibit the importation of American fruits on alleged sanitary grounds, in line with the similar prohibition of American pork. The United States would have much more ground for prohibiting the importation of German wines on alleged sanitary grounds than Germany has to prohibit the importation of American fruit or American pork on such grounds. The president, under the act of 1890, has authority to meet just such discrimination as this."

Senator Mills, a member of the foreign committee, expressed the opinion that Germany's action was the logical sequence of our high tariff system. "I should not like to see American interests suffer," he said, "but we can't expect anything else under the circumstances."

Senator Elkins said: "We may just as well have it out with Germany now as at any other time. There is no denying that we are in a commercial war and we should fight it out on the lines they have laid down. I should go back at them on their own terms. I should prohibit the importation of their sugar."

MIGUEL'S DECREE.

American Fruit Shut Out of the German Market.

BERLIN, Feb. 3.—The Prussian minister of finance, Dr. Mignel, has issued a decree which goes into effect immediately, prohibiting the importation of every kind of American fresh fruit. The United States embassy was not previously warned, and Ambassador Andrew D. White sent a formal letter to the foreign office yesterday, inquiring upon what authority this inimical step was taken. The United States consul at Hamburg, Dr. Hugh Pitcairn, telegraphs that 16,000 barrels of American apples have been forbidden to be unloaded, and two trains of American fruit have also been forbidden to cross the frontier at Emmerich.

At the foreign office it was learned that the Prussian government prohibits the entry of American fruit on sanitary grounds, claiming that California and other vermin threaten German trees and fruit.

House and Senate.

WASHINGTON, Feb. 3.—The house yesterday passed the District of Columbia appropriation bill, after which Mr. Hemmway (Rep., Ind.) reported the fortification appropriation bill. As reported the bill carries \$4,144,912. The only business transacted by the senate in open session was the reading of the agricultural appropriation bill. In executive session Mr. White, without finishing, continued his speech in opposition to the annexation of Hawaii.

Argument in Lucretia Case.

CHICAGO, Feb. 3.—Attorney J. E. Kehoe began the arguments for the defense in the Lucretia trial yesterday. He argued chiefly upon the law aspect of the case. His argument consumed the entire session of court and was not finished at adjournment.

CITIZENS TERRORIZED.

Barns Burned, Church Services Broken Up and Social Gatherings Disturbed.

CHARLESTOWN, Ind., Feb. 3.—Own township, this county, is terrorized by incendiaries. No one knows upon what their property will survive the night, and the alarm is general. Several barns, with their contents, including grain, live stock, etc., have been reduced to ashes by the incendiary's torch and detectives have, so far, failed to unmask the trespassers. The conviction is slowly maturing that the work is being done by home talent. Church services are broken up, social gatherings are interrupted, and the thought is beginning to be freely expressed that perhaps the only remedy is a dose of "Ver-sailles tonic."

Storm at Laporte.

LAPORTE, Ind., Feb. 3.—The storm which raged all day yesterday and up to last night was without precedent. Railroad traffic is practically at a standstill, the companies making no attempt to run trains on schedule time. The country schools are closed, the roads being impassable, and business is much impeded. There is a fine quality of 8 and 10-inch ice.

BRIEF NOTES.

Dr. A. A. Hallock of Massillon, O., was held up by footpads and relieved of \$130. Minks and skunks are reported more plentiful in the vicinity of English, Ind., than for years.

Mrs. Sarah Baldrige, aged 57, accidentally rolled from her bed at Paducah, Ky., and was killed.

The residence of Willard Cobb, editor of the Aurora (Ind.) Independent was destroyed by fire. Loss \$5,000.

The city council of Portsmouth, O., has filed suit to oust the Norfolk and Western from the property it uses in that city.

Reuben and Thomas Ross charged with stabbing Walter Ross to death at Grand River, Ky., have been held in \$3,000 bond.

John Hayslip has been found guilty of manslaughter at West Union, O., for killing Martin Gentry, and sentenced to 12 years in the penitentiary.

A chapter of the Daughters of the American Revolution has been organized at Crawfordsville, Ind., with Mrs. Josephine T. Thomas as regent.

The striking barbers at Elwood, Ind., have forced a compromise with the bosses by which they get \$10 per week, shops to close at 7 p. m., except on Wednesday and Saturday.

Shirley Brink, 16 years old, who was sent to the pen at Richmond, Ky., for housebreaking, and afterward pardoned by the governor is in jail again for the same offense.

Asa Brumfield of Markleville, Ind., after partaking of a hearty dinner, suddenly pushed his chair back, threw up his hands and exclaimed: "I believe I've eaten too much; look at me," and fell to the floor a corpse.

During argument in favor of a new trial in the case of John McIntosh of Logansport, Ind., under life sentence for murder, the court refused to permit McIntosh's presence in the courtroom because he had made threats against the presiding judge and the jury.

NEED A BOYS' PRISON.

Forensic Argument in Favor of One Presented at Nicholasville.

NICHOLASVILLE, Ky., Feb. 3.—The county officials have been confronted with a forcible argument that the state of Kentucky is sadly in need of a house of reformation for youthful criminals.

"Cap" Adams, a 13-year-old white lad, is in jail on a charge of stealing. He confessed his guilt, but begged for mercy. Under the law he would have to be sent to the workhouse. Judge Phillips and Prosecuting Attorney Mitchell were both of the opinion that he was too young to send to the workhouse and be compelled to mingle with the older prisoners and break rock. He was returned to jail to await a decision.

Adams is also accused of breaking into the postoffice at Witmore and stealing \$18, and it is probable that he will be turned over to the United States authorities.

Held Up by a Female Footpad.

LOUISVILLE, Feb. 3.—Mr. Frank Porzig had a struggle with a female footpad who grabbed his watch and then struck him over the head with a blunt instrument, falling him to the ground. Porzig said he got a good view of the woman.

Favors the Postal Savings Bank Bill.

SPRINGFIELD, Ill., Feb. 3.—The lower branch of the legislature has adopted a joint resolution urging the Illinois congressmen and senators to support the postal savings bank bill now pending in congress.

Shipping Whisky to Hamburg.

PEORIA, Ill., Feb. 3.—Owing to a shortage in the potato crop in Germany 2,000 barrels of spirits have been ordered from this city to be shipped to Hamburg.

WAVE OF INDIGNATION

Britishers Terribly Torn Up Over the Eastern Situation.

WILL EFFECT BYE-ELECTIONS.

Liberals Declare It a Humiliating Surrender to Russia—Cuban Insurgents Dynamite a Train—Spanish Military Operations Reported Paralyzed—Mail Tampered With.

LONDON, Feb. 3.—A wave of indignation has swept over the press throughout the country at Lord Salisbury's alleged backdown at Ta-Lien-Wan. Conservatives no less than Liberals bewail the supposed retreat from an unassailable position, on the ground that Great Britain, supported by the United States and Japan, might safely have defied Russia. It is understood that the government is angry with The Times for revealing this position.

The Standard this morning, in the course of an editorial expressing its regret, assumes that since there is no official information to the contrary The Times' version of the situation is correct. It thinks "this will be painfully felt in the course of the pending bye-elections, especially as the story suggests suspicions of a larger and wider surrender."

The editorial concludes by advising the government to let the country know as speedily as possible exactly where it stands.

The Liberals vigorously denounced the reported backdown of the British government, while the conservative members of the house of commons did not conceal their bitter disappointment. Many declined to credit the report until it should be officially confirmed. The Liberals declare it a humiliating surrender to Russia and a severe blow to British interests and prestige.

CUBAN NEWS.

Insurgents Dynamite a Passenger Train Near Guara.

HAVANA, Feb. 3.—The insurgents have dynamited a passenger train near Guara, Havana, partly destroying the engine and derailling the cars. A detachment of Spanish cavalry has been engaged with an insurgent force under Colonel Rosendo Collazo at the Aguayo plantation, Havana province.

Mail matter in the Havana postoffice continues to be tampered with. While European mail matter gets through all correspondence from the United States, especially from Tampa and Key West, is most carefully examined.

In many cases letters and valuable packages fail to reach their destination, the failure causing severe loss. It is reported that this system of inspection was prompted by Dr. Jose Góngora.

Spanish military operations continue almost paralyzed, the season most favorable for movements against the insurgents thus being lost.

CZAR DETERMINED.

That Prince George Shall Become Governor of Crete.

BERLIN, Feb. 3.—A dispatch from Constantinople to the Frankfort Gazette, says the answer of Emperor Nicholas to the Turkish objections to the candidature of Prince George of Greece for the governorship of Crete, was presented to the sultan Tuesday. It was couched in such strong terms that the Russian ambassador, M. Zinovief, hesitated and telegraphed to St. Petersburg for confirmation before presenting it.

Count Muraviev, the Russian foreign minister replied that it was the czar's unalterable determination that Prince George should be nominated.

CURRENCY REFORM.

Mr. Johnson of Indiana Antagonizes the Banking Committee.

WASHINGTON, Feb. 3.—In the meeting of the banking and currency committee yesterday Mr. Hull moved to take up the three propositions embodied in the president's plan. This met the opposition of Mr. Johnson, who in vehement tones questioned the good faith of those who were urging a limited measure of revision saying that they were too much concerned in the annexation of Hawaii to give sincere support to the full accomplishment of financial reform. With much feeling and emphasis Mr. Johnson expressed his regret that the president had not earnestly urged the full measure of currency revision, instead of the limited plan now brought before the committee.

OHIO COAL TRUST.

Output to Be Regulated by Last Year's Sales.

CLEVELAND, Feb. 3.—The joint session of the Ohio Coal Traffic association and the Ohio Coal association will meet here again next week. It is stated on good authority that an Ohio coal trust is already practically formed. The coal dealers have agreed to regulate their output for the balance of the year to correspond with their sales of last year. After the trust has become a fact, all business dealings between coal operators and consumers will cease. All contracts will be made with the central selling company, which is, in reality, the Ohio coal trust.

Howard County Family's Mishaps.

CARLEISLE, O., Feb. 3.—W. H. Newkirk of Howard county, Ind., his wife and little girl have been traveling about the country in a housewagon containing a gasoline stove. During the night the stove exploded. The horse ran away before the occupants could get out of the wagon and all were badly burned. The child may die. The family is destitute.

CHOKED TO DEATH.

Workmen Get Densely Acid In His Mouth While Testing Pipes.

CLEVELAND, Feb. 3.—One of the strangest deaths on record is that of John Liddiard. By the swelling of the glands in his neck he was choked to death. He was employed by the National acid works, and it was part of his duties to inspect the pipe system in which the acids are conducted to different parts of the works. A pipe became clogged, and, taking off the cap, he placed his lips to the opening and blew with great force. Soon afterward his head began to whirl and his lips to swell. By the time he reached home his throat was in alarming condition, and he died from strangulation. Some of the deadly acid had gotten into his mouth.

CLEVELAND INSANE HOSPITAL.

The Legislature, It Is Said, Will Investigate the Institution.

CLEVELAND, Feb. 3.—The Cleveland State Hospital for the Insane is to be investigated by the state legislature. Charges are being made against the management and the matter will shortly be taken up in the senate.

One of the charges, it is said, affects an insane female at the institution and a former employee. Just what form the investigation will take has not been decided upon. Dr. Enrich, first assistant superintendent, says the charge in regard to the female patient is true and that the employee was discharged. The board of trustees, he said, took action at the time but sought to avoid publicity of the matter.

RICH SILVER DEPOSIT.

Mining Men In El Paso, Tex., Greatly Excited Over the Event.

EL PASO, Tex., Feb. 3.—Mining men in this city are excited over a phenomenally rich silver deposit discovered the other day on the line of the Rio Grande, Sierra Madre and Pacific road in old Mexico about 100 miles from El Paso. Francisco Consado of this city discovered the deposit three miles from the railroad track, where it had been trapped over for months unnoticed by railroad men. Consado brought samples of the ore to this city which assayed 26,000 ounces of silver to the ton.

WYOMING WINTER.

Old Timers Say It Is the Hardest in Nineteen Years.

CHEYENNE, Wyo., Feb. 3.—Thousands of sheep are reported to have perished from cold and starvation in western Wyoming. The cold has been intense for 60 days and old timers say that it is the hardest winter they have seen for the past 19 years. Carbon county has 500,000 sheep, and flockmasters there fear the loss will amount to 25 per cent. Losses among cattle will not be so heavy as owners had been preparing for several years to feed their stock during severe weather.

WOMAN TORTURED.

Compelled to Reveal the Hiding Place of Her Money.

DELAWARE, O., Feb. 3.—Four masked men entered the residence of Miss Nancy Fix, living south of this city. They commanded her to tell where she kept her money and upon her refusing they bound and gagged her. Unable to stand the torture she disclosed the hiding place and the robbers secured \$300 in certificates and checks and \$300 in cash. Miss Fix was found with her body badly torn. It is feared that she may not recover. No arrests.

KANSAS PROHIBS.

They Will Remember Those Who Neglected to Enforce the Law.

TOPEKA, Feb. 3.—The state temperance union convention has adopted resolutions reaffirming allegiance to the principles of prohibition, against resubmission and urging the temperance workers to "remember and defeat" the men who have neglected and refused to enforce the prohibitory law.

Some doctors are like owls. They look wise and talk wise but they don't think. In diagnosing disease they don't go back to the starting point. When a man gets sick, nine times out of ten his evident sickness is only a symptom of some hidden and neglected disorder. Most frequently the original and exciting trouble is a disordered digestion. If that is corrected nature will in the majority of cases do the rest. It is easy for a man to avoid sickness if he will keep a watchful eye on his digestion and resort to the right remedy the moment he feels himself out of sorts.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I kept them at hand and a single dose dispels any old symptoms." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. POLITICAL BREVITIES.

The free silver clubs of the Ohio valley will hold a meeting at Indianapolis April 5 and 6.

Thos. B. Turley has been chosen by the Tennessee legislators to succeed himself in the United States senate.

Even though John G. Wells was classed with the gold bugs in 1896, he is announced as a candidate for county clerk and will try to induce the Bryan people to line up for him.

John Wanamaker is being boomed for governor of Pennsylvania despite the fact that he says he does not want public office and suggests the names of a half dozen men any one of whom he says would make a good governor.

Some few democrats in Seymour seem not to know the difference between the tax levy of Jackson county and that of the city of Seymour. The people, however, generally know that the levy in Seymour is 90 cents on the one hundred dollars, which is lower than it has formerly been. The few democrats will find it out later on.

John H. Hopewell today announces his candidacy for city marshal. He is the present night police, which position he is faithful to. He is a good official and has many friends who will heartily support him.

Horace B. White announces his candidacy today for the office of city clerk. He enters the race with the support of numerous friends who know his worth and fitness for the position. He has resided in Seymour for several years and has been employed at the woolen mill. He has a host of substantial friends.

Thos. J. Clark today formally announces his candidacy for city treasurer. Mr. Clark needs no introduction to the people of Seymour, since he has resided here for many years and is known to all. He is the present city treasurer and a most efficient and obliging official he is. He has a host of friends who will give him earnest support.

In another column is the announcement of Joseph E. McKinney as a candidate for city clerk. Mr. McKinney is the present capable clerk of the city of Seymour in which capacity he has served faithfully and well. His records are accurately and neatly kept. He performs all the duties of the office in a most satisfactory and acceptable manner. He enters the contest with the support of a wide circle of friends.

FORGIVENESS.

I sat in the evening cool
Of the heat baked city street
Musing and watching a little pair
Who played on the walk at my feet—
A boy, the elder, of strong, rough mold;
His sister, a blossom sweet.

When, just in the midst of their play,
Came an angry cry and a blow
That bruised the cheek of the little maid
And caused bright tears to flow
And brought from my lips quick, sharp reproof
On the lad who had acted so.

And he stood, sullen and hard,
While the maid soon dried her tear.
He looked at her with an angry eye,
He looked at me with an angry eye,
She timidly drew near,
"Don't be cross, Johnny" (a little sob).
"Let me forgive 'ee, dear!"

And the cloud is passed and gone,
And again in their play they meet,
And the strong, rough boy wears a kinder mien
And brighter the maiden's smile,
While a whisper has come from the heart of God
To a man—a man on the street.

Trying a Dead Man.

It is probably an unusual thing in any country for a court to sit in judgment on the dead, but in a Berlin letter to the Chicago Record an account is given of a trial in which the accused was a dead man.

It was not his first trial. That had taken place in his lifetime, and its result had been a sentence of imprisonment for 18 months. The delinquent was bureau chief in the tax office of Schweidnitz, Silesia, and it was proved that he had embezzled funds and forged documents. Soon after his sentence, however, he showed signs of unsettled reason, and at length died a maniac.

His widow, anxious to clear his memory from the stain that rested upon it, had the case reopened and proved by expert testimony that her husband had been demented at the time he committed the crime.

Thus occurred the peculiar circumstance of a dead man on trial. The trial resulted in the reversal of the former sentence, the court pronouncing the deceased not guilty.

WINE OF CARDUI.

has demonstrated ten thousand times that it is almost infallible FOR WOMAN'S PECULIAR WEAKNESSES.

Irregularities and derangements. It has become the leading remedy for this class of troubles. It exerts a wonderfully healing, strengthening and soothing influence upon the menstrual organs. It cures "whites" and falling of the womb. It stops flooding and relieves suppressed and painful menstruation.

For Change of Life it is the best medicine made. It is beneficial during pregnancy, and helps to bring children into homes barren for years. It invigorates, stimulates, strengthens the whole system. This great remedy is offered to all afflicted women. Why will any woman suffer another minute with certain relief within reach? Wine of Cardui only costs \$1.00 per bottle at your drug store.

Rev. J. W. SMITH, Camden, S. C., says: "My wife used Wine of Cardui with effect for falling of the womb and it entirely cured her."

In a recent letter from Washington, D. C., to an old friend, Major G. A. Studer, for twenty years United States Consul at Singapore, says: "While at Des Moines I became acquainted with a liniment known as Chamberlain's Pain Balm, which I found excellent against rheumatism as well as against soreness of the throat and chest (giving much easier breathing). I had a touch of pneumonia early this week, and two applications freely applied to the throat and chest relieved me of it at once. I would not be without it for anything."

HE LOVED THE SEA.

Tennyson Used to Study It From the Downs of the Isle of Wight.

Tennyson said, "Somehow water is the element I love best of all four," but in the recent memoir he is also credited with saying that he "never cared greatly for the sea on the south coast. It is not a grand sea, only an angry, cur sea."

Probably that was a view expressed before he became familiar with the locality, for though the Atlantic does not plunge against the isle of Wight as against Cornwall and the west of Ireland he himself has proved how much power and enchantment the sea reveals from the downs. Let the weather be fair or foul, nature is never dull from the vantage ground of those convexities which seem like the rim of the earth and give an illusion of vastness and openness beyond their actual area. Men striding on ridges and etched against the sky indeed seem "as trees walking."

The wind rustling in the ear, the sheep bleating, the sea churning among the bowlders, the occasional bellowing of a steamer for a pilot, the swallows crying in their low flights and the gulls screaming give the only sounds. When the mist closes over the scene, a strange sense of being disembodied possesses us, we are lost in the impenetrable vapor, and the gulls pass over our heads, visible but for an instant as they float from obscurity into obscurity. In times of storm one seems to be at the seat of the elements and a witness to all their processes. The clouds roll and break against the cliffs like another sea, and sunbursts flashing from them leave a silver swath over the vexed and somber billows. On sultry days a waterspout, whirling like a dervish, is no uncommon sight, and he who makes the downs his observatory becomes wise in all the phenomena of sea and air. Climbing them at night gives one the feeling of scaling the walls of heaven itself. They slope like the sides of a pyramid, and the apex of the pyramid impales the stars. On sunny days the sea below is purple, and every shade of blue and green that can be thought of, even (to use one of Tennyson's own descriptions) "like a peacock's neck."

Rarely was there a visitor at Farringford that he was not brought up to the beach and shown all these wonders and beauties. Except in his closing years the poet was found upon them in all weathers and at all seasons, and from them and the surrounding scenery he drew many of the landscapes of his poems.—North American Review.

RICHARD MANSFIELD.

Talks to the Graduate Club at the University of Chicago.

CHICAGO, Feb. 3.—Richard Mansfield gave an extempore talk at the Kent theater, University of Chicago, yesterday before the Graduate club and its invited guests, who packed the house.

Mr. Mansfield severely condemned music halls and cheap theaters and declared that money spent in them is money which properly belongs to the drama of this country. He deplored the lack of a great American playwright and appealed to the rising generation to devote their minds to the writing of great plays.

He asserted that the stage is no more, and is perhaps less, immoral than society, and severely scored a prominent London dramatic critic for a recent attack on the morals of the stage.

F. and the lodge at Bedford was requested to take charge of the remains. He left Franklin several days ago on a business trip. He has a wife and daughter in Franklin and Rev. A. A. Ogle, of Indianapolis, who was pastor of the Baptist church here several years ago is a brother. Mr. T. J. Stanfield, of this city was interested with Mr. Ogle in some lumber deals. Prof. C. E. Goodell, of Franklin, went through Seymour yesterday evening on his way to Bedford to accompany the remains back to Franklin today.

How to Get Photographs of Children.

A writer in the February Ladies' Home Journal tells and pictures how to overcome the difficulties of securing good photographs of young children. He has evidently given much study to the matter, and seeks to instruct the parents rather than the photographic artist. The keynote of his teaching is to avoid putting the children in strained, unnatural positions, but to let them assume natural poses. The best way to dress the children, and to fix their hair, is also told, making the article exceedingly valuable.

The tidal wave of mirth and melody "McCarthy's Mishaps," will be the attraction at the Opera House Friday Feb. 4. A grand welcoming no doubt will be accorded to Barney Ferguson and Sam J. Ryan, as they are two of the most popular comedians on the stage today and the amusement loving people of the city are to be congratulated upon having this opportunity.

Both will be seen in new specialties. The support company includes such well known artists as Gertrude Fort star comedian, Phil Mack, eccentric Irish character artist, accompanied by Lottie Medley Murphy, the beautiful singer and dancer, Murphy and Mack. Len Spencer, negro dialect comedian and monologue artist, late principal comedian with Haverly, Cleveland and other first class minstrel companies. Harry Moore, the sweet voiced tenor, Chas. Eastwood, general comedian. Carlisle sisters, vocalists and dancers. Marie Kostetter, soprano, Blanche Gile contralto, Steve Ferguson, character artist and others of equal repute. Music and dancing specialties are used largely in the construction of the play. No farce comedy seen here has offered more features of this character than will be witnessed at this production.

OUR FRUITS TABOOED

Germany Closes Her Ports to Another American Staple.

MR. WHITE WAS NOT NOTIFIED.

The Kaiser's Government Says the Action Was Taken For Sanitary Purposes. Representatives and Senators on the Situation—Train Loads of Fruits are Stopped.

WASHINGTON, Feb. 3.—The state department has not yet been informed by Ambassador White of the exclusion of fresh fruits into Germany and the official statement of the matter is awaited with anxiety at the department. For two years the state department has been engaged, almost fruitlessly, to secure from the German government the reversal of a decree like the present one, but applied to our meat products. The attitude of the Germans in this matter is not encouraging and the announcement of this additional decree against another great American staple export has tried the patience of the department sorely and there is no telling how far we may go toward retaliation if the conditions justify it. Of course nothing will be done in the absence of full official information from Mr. White as to the facts in the case.

There was some complaint a few years ago from Hamburg and Cologne against certain importation of dried fruits on the ground that they contained traces of zinc taken up from the trays on which they were dried but there has never been an attack upon the fresh fruit. The reports of the United States consuls show that our apples are so superior in every respect that there is hardly a market for the German apples in their vicinity.

VIEWS OF LEGISLATORS.

Representatives and Senators Give Expression to Their Thoughts.

WASHINGTON, Feb. 3.—The Berlin cable announcing that Germany had closed her ports against American fruits attracted much attention among members of the house of representatives. Mr. Hitt, chairman of the foreign committee, expressed surprise at the step taken. Mr. Hitt hoped that this was not a step in Germany's retaliatory policy which has been referred to in recent utterances by a distinguished German official. Other members of the house foreign committee expressed the view that this was a part of Germany's retaliatory attitude toward the United States.

Representative Barlow (Cal.) said: "California fruits are singularly free from vermin or disease of any kind. I look upon the ground given for Dr. Miguel's decree as a mere subterfuge. No doubt exists in my mind that it is purely a retaliatory measure." Chairman Dingley looked over the Berlin cable and said: "This is evidently a device to prohibit the importation of American fruits on alleged sanitary grounds, in line with the similar prohibition of American pork. The United States would have much more ground for prohibiting the importation of German wines on alleged sanitary grounds than Germany has to prohibit the importation of American fruit or American pork on such grounds. The president, under the act of 1890, has authority to meet just such discrimination as this."

Senator Mills, a member of the foreign committee, expressed the opinion that Germany's action was the logical sequence of our high tariff system. "I should not like to see American interests suffer," he said, "but we can't expect anything else under the circumstances." Senator Elkins said: "We may just as well have it out with Germany now as at any other time. There is no denying that we are in a commercial war and we should fight it out on the lines they have laid down. I should go back at them on their own terms. I should prohibit the importation of their sugar."

MIGUEL'S DECREE.

American Fruit Shut Out of the German Market.

BERLIN, Feb. 3.—The Prussian minister of finance, Dr. Miguel, has issued a decree which goes into effect immediately, prohibiting the importation of every kind of American fresh fruit. The United States embassy was not previously warned, and Ambassador Andrew D. White sent a formal letter to the foreign office yesterday, inquiring upon what authority this iniquitous step was taken. The United States consul at Hamburg, Dr. Hugh Pittman, telegraphs that 15,000 barrels of American apples have been forbidden to be unloaded, and two trains of American fruit have also been forbidden to cross the frontier at Emmerich.

At the foreign office it was learned that the Prussian government prohibits the entry of American fruit on sanitary grounds, claiming that California and other vermin threaten German trees and fruit.

House and Senate.

WASHINGTON, Feb. 3.—The house yesterday passed the District of Columbia appropriation bill, after which Mr. Hemmway (Rep., Ind.) reported the fortification appropriation bill. As reported the bill carries \$4,144,912. The only business transacted by the senate in open session was the reading of the agricultural appropriation bill. In executive session Mr. White, without finishing, continued his speech in opposition to the annexation of Hawaii.

Argument in Lutetia Case.

CHICAGO, Feb. 3.—Attorney J. E. Kehoe began the arguments for the defense in the Lutetia trial yesterday. He argued chiefly upon the law aspect of the case. His argument consumed the entire session of court and was not finished at adjournment.

CITIZENS TERRORIZED.

Barns Burned, Church Services Broken Up and Social Gatherings Disturbed.

CHARLESTON, Ind., Feb. 3.—Own township, this county, is terrorized by incendiaries. No one knows upon what night his property will survive the night, and the alarm is general. Several barns, with their contents, including grain, live stock, etc., have been reduced to ashes by the incendiary's torch and detectives have, so far, failed to unmask the trespassers. The conviction is slowly maturing that the work is being done by home talent. Church services are broken up, social gatherings are interrupted, and the thought is beginning to be freely expressed that perhaps the only remedy is a dose of "Ver-sailles tonic."

Storm at Laporte.

LAPORTE, Ind., Feb. 3.—The storm which raged all day yesterday and up to last night was without precedent. Railroad traffic is practically at a standstill, the companies making no attempt to run trains on schedule time. The country schools are closed, the roads being impassable, and business is much impeded. There is a fine quality of 8 and 10-inch ice.

BRIEF NOTES.

Dr. A. A. Hallock, of Massillon, O., was held up by footpads and relieved of \$130. Minks and skunks are reported more plentiful in the vicinity of English, Ind., than for years.

Mrs. Sarah Baldrige, aged 57, accidentally rolled from her bed at Paducah, Ky., and was killed.

The residence of Willard Cobb, editor of the Aurora (Ind.) Independent was destroyed by fire. Loss \$5,000.

The city council of Portsmouth, O., has filed suit to oust the Norfolk and Western from the property it owns in that city.

Reuben and Thomas Ross charged with stabbing Walter Hood, to death at Grand River, Ky., have been held in \$3,000 bond.

John Hayslip has been found guilty of manslaughter at West Union, O., for killing Martin Gordy and sentenced to 12 years in the penitentiary.

A chapter of the Daughters of the American Revolution has been organized at Crawfordsville, Ind., with Mrs. Josephine T. Thomas as regent.

The striking barbers at Elwood, Ind., have forced a compromise, with the bosses by which they get \$10 per week, shops to close at 7 p. m., except on Wednesday and Saturday.

Sidney Brink, 16 years old, who was sent to the pen at Richmond, Ky., for housebreaking, and afterward pardoned by the governor is in jail again for the same offense.

Asa Brumfield of Markleville, Ind., after partaking of a hearty dinner, suddenly pushed his chair back, threw up his hands and exclaimed: "I believe I've eaten too much; look at me," and fell to the floor a corpse.

During argument in favor of a new trial in the case of John McIntosh of Logansport, Ind., under life sentence for murder, the court refused to permit McIntosh's presence in the courtroom because he had made threats against the presiding judge and the jury.

NEED A BOYS' PRISON.

Forceful Argument in Favor of One Presented at Nicholasville.

NICHOLASVILLE, Ky., Feb. 3.—The county officials have been confronted with a forcible argument that the state of Kentucky is sadly in need of a house of reformation for youthful criminals. "Cap" Adams, a 13-year-old white lad, is in jail on a charge of stealing. He confessed his guilt, but begged for mercy. Under the law he would have to be sent to the workhouse. Judge Phillips and Prosecuting Attorney Mitchell were both of the opinion that he was too young to send to the workhouse and be compelled to mingle with the older prisoners and break rock. He was returned to jail to await a decision. Adams is also accused of breaking into the postoffice at Witmore and stealing \$18, and it is probable that he will be turned over to the United States authorities.

Held Up by a Female Footpad.

LOUISVILLE, Feb. 3.—Mr. Frank Porzig had a struggle with a female footpad who grabbed his watch and then struck him over the head with a blunt instrument, felling him to the ground. Porzig said he got a good view of the woman.

Favors the Postal Savings Bank Bill.

SPRINGFIELD, Ill., Feb. 3.—The lower branch of the legislature has adopted a joint resolution urging the Illinois congressmen and senators to support the postal savings bank bill now pending in congress.

Shipping Whisky to Hamburg.

PEORIA, Ill., Feb. 3.—Owing to a shortage in the potato crop in Germany 2,000 barrels of spirits have been ordered from this city to be shipped to Hamburg.

WAVE OF INDIGNATION

Britishers Terribly Torn Up Over the Eastern Situation.

WILL EFFECT BYE-ELECTIONS.

Liberals Declare It a Humiliating Surrender to Russia—Cuban Insurgents Dynamite a Train—Spanish Military Operations Reported Paralyzed—Mail Tampered With.

LONDON, Feb. 3.—A wave of indignation has swept over the press throughout the country at Lord Salisbury's alleged backdown at Ta-Lien-Wan. Conservatives no less than Liberals bewail the supposed retreat from an unassailable position, on the ground that Great Britain, supported by the United States and Japan, might safely have defied Russia. It is understood that the government is angry with The Times for revealing its position.

The Standard this morning, in the course of an editorial expressing its regret, assumes that since there is no official information to the contrary The Times' version of the situation is correct. It thinks "this will be painfully felt in the course of the pending bye-elections, especially as the story suggests suspicions of a larger and wider surrender."

The editorial concludes by advising the government to let the country know as speedily as possible exactly where it stands.

The Liberals vigorously denounced the reported backdown of the British government, while the conservative members of the house of commons did not conceal their bitter disappointment. Many declined to credit the report until it should be officially confirmed. The Liberals declare it a humiliating surrender to Russia and a severe blow to British interests and prestige.

CUBAN NEWS.

Insurgents Dynamite a Passenger Train Near Guara.

HAVANA, Feb. 3.—The insurgents have dynamited a passenger train near Guara, Havana, partly destroying the engine and derailing the cars. A detachment of Spanish cavalry has been engaged with an insurgent force under Colonel Rosendo Collazo at the Aguayo plantation, Havana province.

Mail matter in the Havana postoffice continues to be tampered with. While European mail matter gets through all correspondence from the United States, especially from Tampa and Key West, is most carefully examined.

In many cases letters and valuable packages fail to reach their destination, the failure causing severe loss. It is reported that this system of inspection was prompted by Dr. Jose Gongosto.

Spanish military operations continue almost paralyzed, the season most favorable for movements against the insurgents thus being lost.

CZAR DETERMINED.

That Prince George Shall Become Governor of Crete.

BERLIN, Feb. 3.—A dispatch from Constantinople to the Frankfort Gazette, says the answer of Emperor Nicholas to the Turkish objections to the candidature of Prince George of Greece for the governorship of Crete, was presented to the sultan Tuesday. It was couched in such strong terms that the Russian ambassador, M. Zinovieff, hesitated and telegraphed to St. Petersburg for confirmation before accepting it.

Count Muraviev, the Russian foreign minister replied that it was the czar's unalterable determination that Prince George should be nominated.

CURRENCY REFORM.

Mr. Johnson of Indiana Antagonizes the Banking Committee.

WASHINGTON, Feb. 3.—In the meeting of the banking and currency committee yesterday Mr. Hall moved to take up the three propositions embodied in the president's plan. This met the opposition of Mr. Johnson, who in vehement tones questioned the good faith of those who were urging a limited measure of revision saying that they were too much concerned in the annexation of Hawaii to give sincere support to the full accomplishment of financial reform. With much feeling and emphasis Mr. Johnson expressed his regret that the president had not earnestly urged the full measure of currency revision, instead of the limited plan now brought before the committee.

OHIO COAL TRUST.

Output to Be Regulated by Last Year's Sales.

CLEVELAND, Feb. 3.—The joint session of the Ohio Coal Traffic association and the Ohio Coal association will meet here again next week. It is stated on good authority that an Ohio coal trust is already practically formed. The coal dealers have agreed to regulate their output for the balance of the year to correspond with their sales of last year. After the trust has become a fact, all business dealings between coal operators and consumers will cease. All contracts will be made with the central selling company, which is, in reality, the Ohio coal railroads.

Howard County Family's Mishaps.

CARLEISLE, O., Feb. 3.—W. H. Newkirk of Howard county, Ind., his wife and little girl have been traveling about the country in a housewagon containing a gasoline stove. During the night the stove exploded. The horse ran away before the occupants could get out of the wagon and all were badly burned. The child may die. The family is desolate.

CHOKED TO DEATH.

Workman Gets Deadly Acid In His Mouth While Testing Pipes.

CLEVELAND, Feb. 3.—One of the strangest deaths on record is that of John Liddiard. By the swelling of the glands in his neck he was choked to death. He was employed by the National acid works, and it was part of his duties to inspect the pipe system in which the acids are conducted to different parts of the works. A pipe became clogged, and, taking off the cap, he placed his lips to the opening and blew with great force. Soon afterward his head began to whirl and his lips to swell. By the time he reached home his throat was in alarming condition, and he died from strangulation. Some of the deadly acid had gotten into his mouth.

CLEVELAND INSANE HOSPITAL.

The Legislature, It Is Said, Will Investigate the Institution.

CLEVELAND, Feb. 3.—The Cleveland State Hospital for the Insane is to be investigated by the state legislature. Charges are being made against the management and the matter will shortly be taken up in the senate.

One of the charges, it is said, affects an insane female at the institution and a former employee. Just what form the investigation will take has not been decided upon. Dr. Emrich, first assistant superintendent, says the charge in regard to the female patient is true and that the employee was discharged. The board of trustees, he said, took action at the time but sought to avoid publicity of the matter.

RICH SILVER DEPOSIT.

Mining Men In El Paso, Tex., Greatly Excited Over the Event.

EL PASO, Tex., Feb. 3.—Mining men in this city are excited over a phenomenally rich silver deposit discovered the other day on the line of the Rio Grande, Sierra Madre and Pacific road in old Mexico about 100 miles from El Paso. Francisco Consado of this city discovered the deposit three miles from the railroad track, where it had been trapped over for months unnoticed by railroad men. Consado brought samples of the ore to this city which essayed 26,000 ounces of silver to the ton.

WYOMING WINTER.

Old Timers Say It Is the Hardest in Nineteen Years.

CHEYENNE, Wyo., Feb. 3.—Thousands of sheep are reported to have perished from cold and starvation in western Wyoming. The cold has been intense for 60 days and old timers say that it is the hardest winter they have seen for the past 19 years. Carbon county has 500,000 sheep and flockmasters there fear the loss will amount to 25 per cent. Losses among cattle will not be so heavy as owners had been preparing for several years to feed their stock during severe weather.

WOMAN TORTURED.

Compelled to Reveal the Hiding Place of Her Money.

DELAWARE, O., Feb. 3.—Four masked men entered the residence of Miss Nancy Fix, living south of this city. They commanded her to tell where she kept her money and upon her refusing they bound and gagged her. Unable to stand the torture she disclosed the hiding place and the robbers secured \$800 in certificates and checks and \$300 in cash. Miss Fix was found with her body badly torn. It is feared that she may not recover. No arrests.

KANSAS PROHIB.

They Will Remember Those Who Neglected to Enforce the Law.

TOPEKA, Feb. 3.—The state temperance union convention has adopted resolutions reaffirming allegiance to the principles of prohibition, against resubmission and urging the temperance workers to "remember and defeat" the men who have neglected and refused to enforce the prohibitory law.

Some doctors are like owls.

They look wise and talk wise but they don't think. In diagnosing disease they don't go back to the starting point. When a man gets sick, nine times out of ten his evident sickness is only a symptom of some hidden and long-neglected disorder. Most frequently the original and exciting trouble is a disordered digestion. If that is corrected nature will in the majority of cases do the rest. It is easy for a man to avoid sickness if he will keep a watchful eye on his digestion and resort to the right remedy the moment he feels himself out of sorts.

All disorders of the digestion are corrected by Dr. Pierce's Golden Medical Discovery. It restores lost appetite, invigorates the liver, and fills the blood with the life-giving elements that build healthy flesh and firm muscles. It is the great blood-maker, flesh-builder, and nerve tonic. It cures 98 per cent. of all cases of consumption. It cures wasting diseases and nervous troubles. It wards off disease of every description. Buy "Golden Medical Discovery" of reliable dealers; with tricky ones, something else that pays them better will probably be offered as "just as good." Perhaps it is for them, but it can't be for you.

"My wife has found great help from Doctor Pierce's Golden Medical Discovery, as when she takes cold from any cause it generally settles on her lungs," writes E. J. Jamieson, of Box 20, Brooklyn, Cuyahoga Co., Ohio. "The 'Favorite Prescription' we keep on hand all the time. It is a wonderful medicine. My wife has great faith in it. By being careful in the way we live and by using Dr. Pierce's medicines when we don't feel just right, we have had to call in a doctor but once in fifteen years."

A man can't either make money or enjoy life who suffers from headaches, and sleeplessness, and heart-burn. These troubles are caused by constipation. Dr. Pierce's Pleasant Pellets are a sure, safe, speedy and permanent cure for constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Disreputable druggists sometimes try to substitute inferior articles for the sake of profit.

INDIANA STATE FAIR

State Board of Agriculture Fixes the Date at Sept. 12-17.

CLARK COUNTY TERRORIZED

Will Illustrate the Art of Chicken Picking in Court—Wanted For a Murder in Kentucky—Seeking the Parole of an Insane Prisoner—Farmer Takes His Own Life.

INDIANAPOLIS, Feb. 3.—The state board of agriculture late yesterday fixed upon Sept. 12 to 17 as the date of the state fair. Arrangements are to be made to make the exhibition the largest and best ever held. Aaron Jones of South Bend, ex-Governor Matthews and W. W. Stevens of Salem were appointed to confer with the state board of commerce in the manner of arranging for an exhibit of the state's products at the Paris exposition in 1900, and Secretary Kennedy was authorized to go to Chicago this month as a delegate to the meeting in the interest of the corn industry, with the Indiana corn exhibit at Paris in view.

The following executive committee was named: Mason J. Niblack of Vincennes, Mortimer Lovering of Lafayette, M. S. Claypool of Muncie and ex-Governor Matthews of Clinton. President Boylston announced that he had appointed as an advisory committee to the executive committee ex-Mayor Caleb Denny and D. M. Parry, who will represent Indianapolis on the committee.

WILL ILLUSTRATE HER ART.

Chicken Picking Will Show Her Expertness to a Jury.

LADOGA, Ind., Feb. 3.—Mrs. Thomas Brann of this place has sued Max Goodman for \$90 due her, she claims, for picking chickens at 1 cent each at Goodman's poultryhouse. One trial has been held, the jury disagreeing, some of them believing it impossible for Mrs. Brann to pick 6,000 chickens in the time she claimed to have done the work. At the next trial she proposes to clinch her case by having a dozen chickens killed in the presence of the jury and will give them a "New York dress" while they wait. Mrs. Brann is an expert picker and says she can give them a "New York dress" as fast as a man can pull them from a coop and kill them.

Fighting License Application.

NASHVILLE, Ind., Feb. 3.—For the past 18 months Brown county has not had a saloon within her borders. Robert Brown has made application to the county commissioners to retail intoxicants in this city, and the citizens are circulating a remonstrance, which is being freely signed. There is much opposition to the granting of the license.

Died While Falling on His Boots.

SHELBYVILLE, Ind., Feb. 3.—Daniel Meltzer, one of the best known farmers in this county, living four miles east of this city, dropped dead yesterday while pulling on his boots. Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent benefit. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep that in hand and a single dose dispels all old symptoms."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address: DR. MILES MEDICAL CO., Elkhart, Ind.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

POLITICAL BREVITIES.

The free silver clubs of the Ohio valley will hold a meeting at Indianapolis April 5 and 6.

Thos. B. Turley has been chosen by the Tennessee legislators to succeed himself in the United States senate.

Even though John G. Wells was classed with the gold bugs in 1896, he is announced as a candidate for county clerk and will try to induce the Bryan people to line up for him.

John Wansmaker is being boomed for governor of Pennsylvania despite the fact that he says he does not want public office and suggests the names of a half dozen men any one of whom he says would make a good governor.

Some few democrats in Seymour seem not to know the difference between the tax levy of Jackson county and that of the city of Seymour. The people, however, generally know that the levy in Seymour is 90 cents on the one hundred dollars, which is lower than it has formerly been. The few democrats will find it out later on.

John H. Hopewell today announces his candidacy for city marshal. He is the present night police, which position he's faith in giving. He is a good official and has many friends who will heartily support him.

Horace B. White announces his candidacy today for the office of city clerk. He enters the race with the support of numerous friends who know his worth and fitness for the position. He has resided in Seymour for several years and has been employed at the woolen mill. He has a host of substantial friends.

Thos. J. Clark today formally announces his candidacy for city treasurer. Mr. Clark needs no introduction to the people of Seymour, since he has resided here for many years and is known to all. He is the present city treasurer and a most efficient and obliging official he is. He has a host of friends who will give him earnest support.

In another column is the announcement of Joseph E. McKinney as a candidate for city clerk. Mr. McKinney is the present capable clerk of the city of Seymour in which capacity he has served faithfully and well. His records are accurately and neatly kept. He performs all the duties of the office in a most satisfactory and acceptable manner. He enters the contest with the support of a wide circle of friends.

FORGIVENESS.

I sat in the evening cool
Of the best baked city street
Musing and watching a little pair
Who played on the walk at my feet—
A boy, the elder, of strong, rough mold;
His sister, a blossom sweet.

When, just in the midst of their play,
Came an angry cry and a blow
That bruised the cheek of the little maid
And caused bright tears to flow
And brought from my lips quick, sharp reproof
On the lad who had acted so.

And he stood up, sulken and hard,
While the maid soon dried her tear.
He looked at her with an angry eye,
She timidly drew near.
"Don't be cross, Johnny!" (a little sob).
"Let me forgive 'ee, dear!"

And the cloud is passed and gone,
And again in their play they meet,
And the strong, rough boy wears a kinder mien
And brightens the maiden's sweet,
While a whisper has come from the heart of
God.

Trying a Dead Man.

It is probably an unusual thing in any country for a court to sit in judgment on the dead, but in a Berlin letter to the Chicago Record an account is given of a trial in which the accused was a dead man.

It was not his first trial. That had taken place in his lifetime, and its result had been a sentence of imprisonment for 18 months. The delinquent was bureau chief in the tax office of Schweidnitz, Silesia, and it was proved that he had embezzled funds and forged documents. Soon after his sentence, however, he showed signs of unsettled reason, and at length died a maniac.

His widow, anxious to clear his memory from the stain that rested upon it, had the case reopened and proved by expert testimony that her husband had been demented at the time he committed the crime.

Thus occurred the peculiar circumstance of a dead man on trial. The trial resulted in the reversal of the former sentence, the court pronouncing the deceased not guilty.

I would not be without it for anything."

HE LOVED THE SEA.

Tennyson Used to Study It From the Downs of the Isle of Wight.

Tennyson said, "Somehow water is the element I love best of all four," but in the recent memoir he is also credited with saying that he "never cared greatly for the sea on the south coast. It is not a grand sea, only an angry, curt sea."

Probably that was a view expressed before he became familiar with the locality, for though the Atlantic does not plunge against the isle of Wight as against Cornwall and the west of Ireland he himself has proved how much power and enchantment the sea reveals from the downs. Let the weather be fair or foul, nature is never dull from the vantage ground of those convexities which seem like the rim of the earth and give an illusion of vastness and openness beyond their actual area. Men striding on ridges and etched against the sky indeed seem "as trees walking."

The wind rustling in the ear, the sheep bleating, the sea churning among the bowlders, the occasional bellowing of a steamer for a pilot, the swallows crying in their low flights and the gulls screaming give the only sounds. When the mist closes over the scene, a strange sense of being disembodied possesses us, we are lost in the impenetrable vapor, and the gulls pass over our heads, visible but for an instant as they float from obscurity into obscurity. In times of storm one seems to be at the seat of the elements and a witness to all their processes. The clouds roll and break against the cliffs like another sea, and sunbursts flashing from them leave a silver swath over the vexed and somber billows. On sultry days a waterspout, whirling like a dervish, is no uncommon sight, and he who makes the downs his observatory becomes wise in all the phenomena of sea and air. Climbing them at night gives one the feeling of scaling the walls of heaven itself. They slope like the sides of a pyramid, and the apex of the pyramid impales the stars. On sunny days the sea below is purple, and every shade of blue and green that can be thought of, (even to use one of Tennyson's own descriptions) "like a peacock's neck."

Rarely was there a visitor at Farringford that he was not brought up to the beach and shown all these wonders and beauties. Except in his closing years the poet was found upon them in all weathers and at all seasons, and from them and the surrounding scenery he drew many of the landscapes of his poems.—North American Review.

RICHARD MANSFIELD.

Talks to the Graduate Club at the University of Chicago.

CHICAGO, Feb. 3.—Richard Mansfield gave an extempore talk at the Kent theater, University of Chicago, yesterday before the Graduate club and its invited guests, who packed the house.

Mr. Mansfield severely condemned music halls and cheap theaters and declared that money spent in them is money which properly belongs to the drama of this country. He deplored the lack of a great American playwright and appealed to the rising generation to devote their minds to the writing of great plays.

He asserted that the stage is no more, and is perhaps less, immortal than society, and severely scored a prominent London dramatic critic for a recent attack on the morals of the stage.

Mr. Mansfield urged the recognition and encouragement of American dramatic artists as against foreigners and declared that America has as good reason to be proud of its stage as England, Germany or France. He said the mission of the actor is to instruct as well as to amuse and that the actor has much the better of the clergyman in that the former preaches seven or eight times a week, while the latter is limited to one weekly sermon or at the most two.

STORM LOSS.

Boston Suffers to the Amount of \$1,428,000—Loss of Life.

BOSTON, Feb. 3.—A score of persons were drowned and \$2,000,000 loss was inflicted by the late storm which swept over eastern Massachusetts and Rhode Island.

Four unidentified bodies lie in the coroner's office in Gloucester. Five more are in Lynn, brought over from Little Nahant, where the schooner Charles H. Briggs was wrecked. Twelve unidentified corpses are reported to be at Baker's island, in Salem harbor. They too must have manned some of the schooners which were lost in Gloucester harbor. That there are others in the waters of the bay seems almost certain. Wreckage is strewn up and down the coast from Cape Ann to Cape Cod. Thirty schooners were wrecked in Massachusetts bay.

On land the loss by the storm seems to have been confined entirely to property. Boston was for 24 hours without direct telegraphic communication with the rest of the world. The cost of the storm in this city is estimated at \$1,428,000.

How to Get Photographs of Children.

A writer in the February Ladies'
Home Journal tells and pictures how
to overcome the difficulties of securing
good photographs of young children.
He has evidently given much study to
the matter, and seeks to instruct the
parents rather than the photographic
artist. The keynote of his teaching is
to avoid putting the children in
strained, unnatural positions, but to let
them assume natural poses. The best
way to dress the children, and to fix
their hair, is also told, making the
article exceedingly valuable.

MARCH HAS ITS VIOLETS.

And There is a Bright and Cheerful Side to Everything.

Edward W. Bok, under the title of "The Color of Spring Violets," writes most forcibly in "The Ladies' Home Journal" on the theme that there is a bright side to everything—even to March, the most disagreeable month of the year, for it has its spring violets. "It is true," he writes, "that it is difficult sometimes to see the bright side of sorrow, sickness and death. And yet there is distinctly a bright side. No sorrow comes to us without a reason. We never know our friends until sorrow or illness comes to us. We never know what loving kindness and thoughtfulness mean until we stand in need of them, and our hearts seem to beat against the walls of a cold, merciless world. We learn something from every grief and from each pain which comes to us. We learn to distinguish between friends, and what more priceless possession is there in the whole range of knowledge than this? What develops us more than trouble? Virtues of heart, which we never dreamed of as existing within us, reveal themselves when we are sorely tried. That is why sorrow and trials are given us—not to give pain, but to develop us, to better equip us for something unknown which lies in the future, and which we could not meet or understand unless we had first gone through certain experiences.

"We are far too apt to regard actual blessings as calamities, to look upon the dark side of things. Some sorrow comes to us, and we rebel. It never occurs to us that perhaps we need the experience which sorrow alone can give. Illness comes, and we fret. But we cannot always be well. Ailments are very often given to us to make our appreciation of good health the keener. God has an aim, a direct purpose, in everything he does. His blessings come in different forms. Nor are these forms always such as we would choose. Lessons can be more effectively taught in innumerable cases through sorrow than through pleasure. We should never know what a pure, beautiful color white is if we did not have black to bring out the contrast. When sorrow comes, we rebel and refuse to recognize it for what it so often is—a blessing in disguise. We cannot always have it June. There must be March. Yet March has its spring violets."

The First Steam Power.

The power of steam was known to Hero of Alexandria, who exhibited what seems from the description to have been a small steam engine to Ptolemy Philadelphus and his court about 150 B. C. Pliny describes a small boat, built by a "magician" of Rome, which moved by means of a wheel, "driven by a pot of hot water." Watt's invention of a rotary steam engine was patented in 1769. The first railway locomotive was built by Trevithick in 1804. The first practical locomotive was perfected by Stephenson in 1825. As early as 1707 Denys Papin built a model of a steamboat, which was destroyed by a mob of boatmen. The first practical steamboat was built by William Symington in 1802. In 1803 Robert Fulton, in connection with Chancellor Livingston, built a steamboat which was tried on the Seine. In 1807 the Clermont began trips from New York to Albany.

Greater Glasgow, with a population of 853,000, has only 494 medical men, or one doctor to 1,726 of the population. It must be a healthy place.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours, sediment or settling indicates kidney or bladder trouble. The mild and extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the Republican and send your address to Dr. Kilmer & Co., Bingham, N. Y. The proprietors of this paper guarantee its usefulness of this offer.

Chamberlain's Cough Remedy Always Proves Effective.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effective. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies, and like the writer, be benefited. —From the Glenville (W. DIED.

Miss Sallie Tilford, a highly esteemed lady of New Washington, died Wednesday, February 2, 1898, aged sixty-two years. She was a cousin to Mrs. Dr. N. N. Shipman, of Seymour.

If you eat what you like, and digest it, you will surely be strong and healthy. But if you don't digest it, you might almost as well not eat, for what good can your food do you if it doesn't nourish you?

If you find that you can't digest it, there is a simple help for your stomach. It is Shaker Digestive Cordial, made by the Shakers of Mount Lebanon. It has never failed to cure the worst case of indigestion.

Strength and health come from the food you eat, after it has been digested and has gone into the blood.

The best tonic is digested food. The best aid to digestion, Shaker Digestive Cordial.

When you have acid eructations, nausea, headache, wind, dizziness, offensive breath, or any other symptoms of dyspepsia, Shaker Digestive Cordial will cure you.

Took a Severe Cold After the Big Fire.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help, the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, editor Daily Advertiser, Cripple Creek, Colo. Sold by C. W. Milhous.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Inventor, will send free to the afflicted, Three B. Tablets of His Newly Discovered Remedy to Cure Consumption, and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the Seymour REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 88 Pine Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the Seymour REPUBLICAN.

SILVER MEN TO CONFER.

Leaders Will Endeavor to Unite All Friends of the White Metal.

BLACKFOOT, Ida., Feb. 2.—Ex-Senator Dubois' chairman of the executive committee of the National Silver Republican party, left for the east last night at the request of the silver leaders, to confer with them for the purpose of uniting all silver forces. Chairman Dubois says the vote in the senate in favor of the Teller resolution has convinced the silver advocates that, with a close union of the silver forces, victory in 1898 and 1900 is certain. Under the contemplated arrangement the Populists, Silver Republicans and Democratic parties will each maintain a distinct organization.

Filled the Prescription.

De Quincy tells the story somewhere of a party of Englishmen who, finding themselves in Paris on Christmas day and being bound to have plum pudding for dinner, were unable to find a cook able to prepare the dish in orthodox fashion. Conferences with several distinguished chefs disclosed nothing but the most astounding Gallic ignorance of the British national dish.

This was, of course, before the days of the "petite viette," which brought across the channel so opportunely for Taffy and Little Billie and the Laird their Christmas dinner; so something had to be done.

One of the Englishmen happened to be a doctor and also an amateur cook. He had in his possession a recipe for plum pudding, warranted orthodox. This, with some labor, and doubting much of its ultimate success, he reduced to the terms of a prescription and sent to an apothecary. Les trois Angliches then sat down to dinner and awaited results.

Sure enough, at the proper stage of the feast, when the plum pudding was due, entered the apothecary, in black silk stockings and small clothes, according to the custom of the day, and wearing a sword. Behind him came his assistant, bearing aloft the "prescription." It was perfect in every detail, even to the blazing halo of brandy.

It is related that when the man of drugs realized the joke that had been played upon him, he was for putting his sword to other than ornamental uses. But one taste of his own medicine served to placate him and he sat at the feast with his English friends.

George III.

A small party is assembled in a room at Windsor round Mrs. Delaney, an old lady whose goodness and amiability have made her a great favorite with virtuous and pious royalty. One of them, Miss Burney, is an authoress of repute. The door opens, and there enters a large man in black, with a star upon his breast. Profound sensation is caused by his appearance, and the party, in compliance with a curious etiquette, show their awful sense of present royalty by huddling up to the wall. The king talks affectionately to the good old lady, and with playful appropriateness to her literary friend, whose novels he has read with interest. He has a trick of saying, "What, what, what," but otherwise, unless the report of his conversation has been dressed, he talks not ill.

He has read Voltaire and Rousseau. Voltaire, he owns, he thinks a monster, as a religious man, without being a great bigot, well might. Rousseau he dislikes less and had given him a pension. He reads the newspapers, though they are far from courtly. He is fond of plays and criticizes the comedies of his time. He has the misfortune to let fall the remark to a lady who would record it that "a great part of Shakespeare is sad stuff, only you must not say so." But so thought Voltaire and all the devotees of the classical rules. George spoke three languages and had a taste for music, so that, poor as his education in his boyhood had been, as a man he could hardly be called uncultivated or incapable on that account of taking in large ideas.—Cornhill Magazine.

"La Typewritense."

It is in commerce that L'Anglicisme naturally wins its greatest victories. In his Montreal office M. Jean Baptiste employs a secretaire prive—not particular, like his Parsian cousin—and, to make matters worse, this official must nowadays be a typewriter (or typewritense, as the case may be,) who increases the demoralization of his native tongue with his "lettres typewrites."

Of course, the French-Canadian merchant has to count his money in dollars and cents like his neighbors, and cent or centin long ago displaced sou. The obvious Anglican chelin has gone out of fashion with the English shilling, and is only used to (represent 20 cents) by the old market women and their contemporaries; and plastra is not yet translated into "dollar," but escompte has already become "discount," and difference has become "balance," regardless of the fact that balance, like bannne, is a French word with quite a different meaning.—Contemporary Review.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I keep them at hand and a single dose dispels any old symptoms."

POLITICAL BREVITIES.

The free silver clubs of the Ohio valley will hold a meeting at Indiana-polis April 5 and 6.

Thos. B. Turley has been chosen by the Tennessee legislators to succeed himself in the United States senate.

Even though John G. Wells was classed with the gold bugs in 1896, he is announced as a candidate for county clerk and will try to induce the Bryan people to line up for him.

John Wanamaker is being boomed for governor of Pennsylvania despite the fact that he says he does not want public office and suggests the names of a half dozen men any one of whom he says would make a good governor.

Some few democrats in Seymour seem not to know the difference between the tax levy of Jackson county and that of the city of Seymour. The people, however, generally know that the levy in Seymour is 90 cents on the one hundred dollars, which is lower than it has formerly been. The few democrats will find it out later on.

John H. Hopewell today announces his candidacy for city marshal. He is the present night police, which position he's faith fully filling. He is a good official and has many friends who will heartily support him.

Horace B. White announces his candidacy today for the office of city Clerk. He enters the race with the support of numerous friends who know his worth and fitness for the position. He has resided in Seymour for several years and has been employed at the woolen mill. He has a host of substantial friends.

Thos. J. Clark today formally announces his candidacy for city treasurer. Mr. Clark needs no introduction to the people of Seymour, since he has resided here for many years and is known to all. He is the present city treasurer and a most efficient and obliging official he is. He has a host of friends who will give him earnest support.

In another column is the announce-ment of Joseph E. McKinney as a candidate for city clerk. Mr. McKinney is the present capable clerk of the city of Seymour in which capacity he has served faithfully and well. His records are accurately and neatly kept. He performs all the duties of the office in a most satisfactory and acceptable manner. He enters the contest with the support of a wide circle of friends.

FORGIVENESS.

I sat in the evening cool

Of the hot baked city street

Musing and watching a little pair

Who played on the walk at my feet—

A boy, the elder, of strong, rough mold;

His sister, a blossom sweet.

When, just in the midst of their play,

Came an angry cry and a blow

That bruised the cheek of the little maid

And caused bright tears to flow

And brought from my lips quick, sharp reproof

On the lad who had acted so.

And he stood up, sulken and hard,

While the maid soon dried her tear.

He looked at her with an angry eye.

She timidly drew near.

"Don't be cross, Johnny!" (a little sob).

"Let me forgive 'ee, dear!"

And the cloud was passed and gone.

And again in their play they meet.

And the strong, rough boy wears a kinder mien

And brighter the maiden's smile.

While a whisper has come from the heart of

God

To a man—a man on the street.

Trying a Dead Man.

It is probably an unusual thing in any country for a court to sit in judgment on the dead, but in a Berlin letter to the Chicago Record an account is given of a trial in which the accused was a dead man.

It was not his first trial. That had taken place in his lifetime, and its result had been a sentence of imprisonment for 18 months. The delinquent was bureau chief in the tax office of Schweidnitz, Silesia, and it was proved that he had embezzled funds and forged documents. Soon after his sentence, however, he showed signs of unsettled reason, and at length died a maniac.

His widow, anxious to clear his memory from the stain that rested upon it, had the case reopened and proved by expert testimony that her husband had been demented at the time he committed the crime.

Thus occurred the peculiar circumstance of a dead man on trial. The trial resulted in the reversal of the former sentence, the court pronouncing the deceased not guilty.

How to Get Photographs of Children.

A writer in the February Ladies'
Home Journal tells and pictures how
to overcome the difficulties of securing
good photographs of young children.
He has evidently given much study to
the matter, and seeks to instruct the
parents rather than the photographic
artist. The keynote of his teaching is
to avoid putting the children in
strained, unnatural positions, but to let
them assume natural poses. The best
way to dress the children, and to fix
their hair, is also told, making the
article exceedingly valuable.

MARCH HAS ITS VIOLETS.

And There Is a Bright and Cheerful Side to Everything.

Edward W. Bok, under the title of "The Odor of Spring Violets," writes most forcibly in The Ladies' Home Journal on the theme that there is a bright side to everything—even to March, the most disagreeable month of the year, for it has its spring violets. "It is true," he writes, "that it is difficult sometimes to see the bright side of sorrow, sickness and death. And yet there is distinctly a bright side. No sorrow comes to us without a reason. We never know our friends until sorrow or illness comes to us. We never know what loving kindness and thoughtfulness mean until we stand in need of them, and our hearts seem to beat against the walls of a cold, merciless world. We learn something from every grief and from each pain which comes to us. We learn to distinguish between friends, and what more priceless possession is there in the whole range of knowledge than this? What develops us more than trouble? Virtues of heart, which we never dreamed of as existing within us, reveal themselves when we are sorely tried. That is why sorrow and trials are given us—not to give pain, but to develop us, to better equip us for something unknown which lies in the future, and which we could not meet or understand unless we had first gone through certain experiences.

"We are far too apt to regard actual blessings as calamities, to look upon the dark side of things. Some sorrow comes to us, and we rebel. It never occurs to us that perhaps we need the experience which sorrow alone can give. Illness comes, and we fret. But we cannot always be well. Ailments are very often given to us to make our appreciation of good health the keener. God has an aim, a direct purpose, in everything he does. His blessings come in different forms. Nor are these forms always such as we would choose. Lessons can be more effectively taught in innumerable cases through sorrow than through pleasure. We should never know what a pure, beautiful color white is if we did not have black to bring out the contrast. We want only pleasure in our lives. When sorrow comes, we rebel and refuse to recognize it for what it so often is—a blessing in disguise. We cannot always have it June. There must be March. Yet March has its spring violets."

The First Steam Power.

The power of steam was known to Hero of Alexandria, who exhibited what seems from the description to have been a small steam engine to Ptolemy Philadelphus and his court about 150 B. C. Ptolemy describes a small boat, built by a "magician" of Rome, which moved by means of a wheel, "driven by a pot of hot water." Watt's invention of a rotary steam engine was patented in 1769. The first railway locomotive was built by Trevithick in 1804. The first practical locomotive was perfected by Stephenson in 1825. As early as 1707 Denis Papin built a model of a steamboat, which was destroyed by a mob of boatmen. The first practical steamboat was built by William Symington in 1802. In 1803 Robert Fulton, in connection with Chancellor Livingston, built a steamboat which was tried on the Seine. In 1807 the Clermont began trips from New York to Albany.

Greater Glasgow, with a population of 553,000, has only 494 medical men, or one doctor to 1,126 of the population. It must be a healthy place.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention the REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its usefulness of this offer.

Chamberlain's Cough Remedy Always Proves Effectual.

There are no better medicines on the market than Chamberlain's. We have used the Cough Remedy when all others failed, and in every instance it proved effectual. Almost daily we hear the virtues of Chamberlain's remedies extolled by those who have used them. This is not an empty puff, paid for so much a line, but is voluntarily given in good faith, in the hope that suffering humanity may try these remedies and, like the writer, be benefited. —From the Greenville (W. Va.) Pathfinder. For sale by C. W. Milbous.

DIED.

Miss Sallie Tilford, a highly esteemed lady of New Washington, died Wednesday, February 2, 1898, aged sixty-two years. She was a cousin to Mrs. Dr. N. N. Shipman, of Seymour.

If you eat what you like, and digest it, you will surely be strong and healthy. But if you don't digest it, you might almost as well not eat, for what good can your food do you if it doesn't nourish you?

If you find that you can't digest it, there is a simple help for your stomach. It is Shaker Digestive Cordial, made by the Shakers of Mount Lebanon. It has never failed to cure the worst case of indigestion.

Strength and health come from the food you eat, after it has been digested and has gone into the blood.

The best tonic is digested food. The best aid to digestion, Shaker Digestive Cordial.

When you have acid eructations, nausea, headache, wind, dizziness, offensive breath, or any other symptoms of dyspepsia, Shaker Digestive Cordial will cure you.

Took a Severe Cold After the Big Fire.

After the big fire in Cripple Creek, I took a very severe cold and tried many remedies without help; the cold only becoming more settled. After using three small bottles of Chamberlain's Cough Remedy, both the cold and cough left me, and in this high altitude it takes a meritorious cough remedy to do any good.—G. B. Henderson, editor Daily Advertiser, Cripple Creek, Colo. Sold by C. W. Milbous.

THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will Send Free, to the Afflicted, Three Little Boxes of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make its great merits known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 183 Pearl Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

SILVER MEN TO CONFER.

Leaders Will Endeavor to Unite All Friends of the White Metal.

BLACKFORD, Ind., Feb. 2.—Ex-Senator Dubois' chairman of the executive committee of the National Silver Republican party, left for the east last night at the request of the silver leaders, to confer with them for the purpose of uniting all silver forces. Chairman Dubois says the vote in the senate in favor of the Teller resolution has convinced the silver advocates that, with a close union of the silver forces, victory in 1898 and 1900 is certain. Under the contemplated arrangement the Populists, Silver Republicans and Democratic parties will each maintain a distinct organization.

Slightly Mixed at Duluth.

DULUTH, Feb. 2.—Henry Truelsen has been re-elected mayor of this city over Elmer F. Mitchell (Rep.) by a majority of about 1,300. He was nominated by the Populists and endorsed by the Democrats. Party lines were largely lost sight of in the campaign. Of the nine new members of the common council four are Republicans, one a Gold Democrat, one Independent Silver and three Silver Fusion.

Filled the Prescription.

De Quincey tells the story somewhere of a party of Englishmen who, finding themselves in Paris on Christmas day and being bound to have plum pudding for dinner, were unable to find a cook able to prepare the dish in orthodox fashion. Conferences with several distinguished chefs disclosed nothing but the most astounding Gallic ignorance of the British national dish.

This was, of course, before the days of the "petite vitesse," which brought across the channel so opportunely for Taffy and Little Billee and the Laird their Christmas dinner; so something had to be done.

One of the Englishmen happened to be a doctor and also an amateur cook. He had in his possession a recipe for plum pudding, warranted orthodox. This, with some labor, and doubting much of its ultimate success, he reduced to the terms of a prescription and sent to an apothecary. Les trois Angliches then sat down to dinner and awaited results.

Sure enough, at the proper stage of the feast, when the plum pudding was due, entered the apothecary, in black silk stockings and small clothes, according to the custom of the day, and wearing a sword. Behind him came his assistant, bearing aloft the "prescription." It was perfect in every detail, even to the blazing halo of brandy.

It is related that when the man of drugs realized the joke that had been played upon him, he was for putting his sword to other than ornamental uses. But cue taste of his own medicine served to placate him and he sat at the feast with his English friends.

George III.

A small party is assembled in a room at Windsor round Mrs. Delaney, an old lady whose goodness and amiability have made her a great favorite with virtuous and pious royalty. One of them, Miss Burney, is an authoress of repute. The door opens, and there enters a large man in black, with a star upon his breast. Profound sensation is caused by his appearance, and the party, in compliance with a curious etiquette, show their awful sense of present royalty by huddling up to the wall. The king talks affectionately to the good old lady, and with playful appropriateness to her literary friend, whose novels he has read with interest. He has a trick of saying, "What, what, what," but otherwise, unless the report of his conversation has been dressed, he talks not ill.

He has read Voltaire and Rousseau. Voltaire, he owns, he thinks a monster, as a religious man, without being a great bigot, well might. Rousseau he dislikes less and had given him a pension. He reads the newspapers, though they are far from courtly. He is fond of plays and criticises the comedies of his time. He has the misfortune to let fall the remark to a lady who would record it as sad stuff, only you must not say so. But so thought Voltaire and all the devotees of the classical rules. George spoke three languages and had a taste for music, so that, poor as his education in his boyhood had been, as a man he could hardly be called uncultivated or incapable on that account of taking in large ideas.—Cornhill Magazine.

"La Typewriteuse."

It is in commerce that l'Anglicisme naturally wins its greatest victories. In his Montreal office M. Jean Baptiste employs a secretary privy—not particularly, like his Persian cousin—and, to make matters worse, this official must nowadays be a typewriter (or typewriteuse, as the case may be), who increases the demoralization of his native tongue with his "letters typewrites." Of course, the French-Canadian merchant has to count his money in dollars and cents like his neighbors, and cent or centime long ago displaced sou. The obvious Anglicism chelin has gone out of fashion with the English shilling, and is only used (to represent 20 cents) by the old market women and their contemporaries; and plastro is not yet translated into "dollar," but essence has already become "balance," regardless of the fact that balance, like baume, is a French word with quite a different meaning.—Contemporary Review.
